Education

Faculty of Computers and Information, Kafr El Sheikh University — Expected 2026
Bachelor of Science in Information System (GPA: 3.1 / 4.00) — *Kafr El Sheikh, Egypt*

Summary

Ambitious frontend developer with hands-on experience in various web technologies. Known for a strong work ethic, dedication to continuous learning, and a passion for modern, responsive design. Eager to collaborate with dynamic teams and contribute to innovative projects. Driven to make a positive impact in the tech industry by leveraging skills in HTML, CSS, JavaScript, and React to create engaging user experiences.

Experience

Smart Moon — June 2019 – October 2022
Sales Representative and System Accountant — *Kafr El Sheikh, Egypt*
- Worked at one of the largest companies in the electrical appliances industry, responsible for distributing high-quality appliances.
- Managed sales operations, interacted with clients, and ensured smooth transactions in line with company goals.
- Handled accounting tasks on the company's specialized system, including inventory management, invoicing, and payment tracking.
- Contributed to maintaining accurate records and reports, ensuring the company's financial data was well-organized and up-to-date.

Information Technology Institute (ITI) — August 2024
Frontend Web Development Trainee — *Suez Canal Branch, Egypt*
- Completed an intensive Frontend Web Development course covering key technologies such as HTML, CSS, Bootstrap, jQuery, and Responsive Design.
- Developed several web applications with a focus on responsive design and modern UI/UX practices.
- Gained hands-on experience in building dynamic websites using JavaScript and integrating third-party libraries.

Google Developer Student Club - Kafr El Sheikh University — July 2024
Frontend Development Trainee — *Kafr El Sheikh, Egypt*
- Successfully completed the Frontend Development track, gaining skills in HTML, CSS, JavaScript, and modern frontend technologies.
- Collaborated with a team of students to build web applications.
- Developed projects showcasing responsive design, interactivity, and API integration.

IEEE Kafrelshiekh Student Branch — October 2024
Head of Frontend Committee — *Kafr El Sheikh, Egypt*
- Led and mentored a team of students, teaching core frontend development skills including HTML, CSS, Sass, Bootstrap, JavaScript, and jQuery.
- Organized workshops and tutorials, helping members develop modern, responsive web applications.
- Ensured best practices in code structure, design patterns, and responsive design were followed in all team projects.
- Developed teaching materials and guided students through hands-on projects to reinforce learning.

Projects

Sales System 🐙
- Developed a comprehensive sales system allowing users to manage invoices (sales and returns) for purchases and sales.
- Implemented key features such as adding customers and suppliers, managing items, recording expenses, transferring between warehouses and safes, and generating detailed reports.
- Created modules for handling client receipts, payments, and tracking employee salaries, in addition to notifications for low stock and overdue payments.
- Enabled the creation of system users with specific permissions determined by the manager.
